

Technical specification

Sponge Rubber NR/SBR

Description Sponge rubber with smooth skin on both sides. The material has a mix of open and closed cells which gives a very soft and elastic property. Not recommended where special demands into ageing, oil and chemical contact are required.

Properties	Unit	Value	Test method
Colour		Light grey	
Temperature use			
Continuous		-30/+70	
Short time		+90 (Ioh)	
Specific gravity	g/cm ³	0.6 ± 20%
