

Technical specification

TF 4623 LBG

Description Adhesive is a solvent free modified acrylic based on aqueous dispersions. It has an excellent tack combined with a high adhesive strength on difficult such as foams, PE- and PP-films.

Properties	Unit	Value	Test method
Adhesive type		Modified acrylic	
Total tape thickness	Mm	0.23	
Adhesive weight	g/m ²	220	
Carrier type		PES/PVA scrim	
Interliner	g/m ²	Release paper, yellow 90	
Temperature resistance	°C	-40 – +95	
Adhesive strength (contact time: 1h)		Min 30 N/25mm	AFERA 5001
