

Technical specification

TF 1331

Description On the open side the adhesive has very good bonding properties and ageing resistance against temperatures and humidity. On the closed side the adhesive leave no residues when a when removal is required.

Properties	Unit	Value	Test method
Carrier		PET film	
Adhesive		Acrylic pure	
Liner		Paper silicone coated brown	
Weather resistance		Yes	
UV resistant		Yes	
Ageing resistant		Yes	
Thickness total	Mm	0.1	
Adhesion on stainless steel		20N/25mm	AFERA 4001
Adhesion on stainless steel, closed side		2N/25mm	AFERA 4001
Service temperature	°C	-40 – +140	
Application temperature	°C	15
